

Drive My Car

Lyrics by Hendrik Achenbach

1

Leaves are falling and
the moon is white in
the sky
Roads are winding while
the lights keep blinding me
tonight

Chorus

This road, it leads to you
and all I need to do
is drive my car
I'm on my way to meet
the heart that cares for me
and all I'm gonna do
is drive my car

2

Gears are shifting
With the clouds I'm drifting
to you
Wheels are turning
and my heart is burning
so true

Chorus

3

New day greets me
on the way that leads to
your charms
Sun's up high as I
fly straight into
your arms

Bridge

You're my one and only destination
My love for you will take me very far
Your wish is my command no hesitation
Except that I won't let you drive my car

Chorus
